

CCJ + BST-e20 + BM-e

Consider the complete finishing solution for offset printers, with the ability to transform press output into stitched booklets and/or collated stacks. The collating tower (BST-e) solution may produce from 10 to 50 sheet jobs as each tower consists of 10 feeding stations. The output from these collating towers can be sent into a C.P. Bourg booklet making unit BM-e or into a stacking unit (CCJ or Td). Additionally, a square edge may be added to this configuration.

The BST-e + BM-e configuration allows easy processing of large paper formats up to 600 x 370 mm (23.62 x 14.67 in) and may reach speeds up to 5000 booklets per hour.

The BST-d + BDF configuration allows easy processing of classic paper formats up to 520 x 356 mm (20.47 x 14.02 in) and may reach speeds up to 4200 booklets per hour.

Whether you are a professional or an institution, find the booklet making solution that matches the needs of your business today.

Td + BST-d30 + BDF + SQE

OFF-LINE

DIGITAL

BSF + BCM-e + BM-e + SQE

Consider the ideal booklet making solution for digital printers capable of processing the output of multiple digital printers into stitched booklets. C.P. Bourg's BSF feeders are composed of two feeding stations allowing easy cover and content insertion. When dealing with color, lateral bleed/trim and crease units (BCM-e) may be added to offer outstanding quality before entering a Bourg booklet maker (BM-e or BDF-e). Additionally, a square edge may be added to this configuration.

The BSF – BCM-e – BM-e configuration allows easy processing of large paper formats up to 571.5 x 364 mm (22.5 x 14.3 in) and may reach speeds up to 12000 sheets per hour. Without the BCM unit, this speed may be increased to 15000 sheets per hour.

The BSF – BCM-e – BDF-e configuration allows easy processing of classic paper formats up to 520 x 356 mm (20.5 x 14in) and may reach speeds up to 12000 sheets per hour. Without the BCM unit this speed may be increased to 15000 sheets per hour.

Whether you are a professional or an institution, find the booklet making solution that matches the needs of your business today.
